Con l'inserimento dei figli Alessia e Giorgio con competenze distintive, l'azienda ha pianificato lo sviluppo per assumere i connotati di sistema impresa. Attraverso il potenziamento della struttura, delle tecnologie, dell'organizzazione per processi e degli strumenti operativi, implementando la formazione delle risorse umane e costituendo un team di lavoro composto da specialisti di area, Zanetti Chini ha elaborato un eccellente sistema per creare valore.

In quest'ottica Zanetti Chini si è trasformata in un sistema organizzato e flessibile con un forte orientamento al mercato, originalità di pensiero e freschezza di linguaggio, mantenendo un giusto equilibrio tra tradizione e innovazione, secondo un modo di essere e competendo con una gamma articolata di prodotti suddivisi in collezioni distintive per forme e funzioni.

His daughter Alessia and son Giorgio joined the company, each bringing distinctive skills,
the company gradually grew into an industrial system. New structures and technologies were added, and the organization expanded to accommodate new processes and equipment.
By training its human resources to create a working team of specialists in every area of the business, Zanetti Chini developed a valid system for building value.

With its vision, Zanetti Chini matured in its structure to become a well-organized, flexible, market-oriented system with original ideas and a fresh way of expressing them, maintaining a tasteful balance between tradition and innovation, and competing with a wide range of products divided into separate collections distinguished by their design and function.
